

**FACADES**

# RIVA AOC 50 ST

Add-on construction on steel for skylights and facades – verified for passive house. Implement vertical facades and skylights in 50 mm on steel subconstructions with the RIVA AOC 50 ST (Steel) facade system – and in so doing maintain an abundance of creative possibilities.

A simple and secure design, including load transfer and bolt guidance, even for large pane dimensions, can be implemented through the patented system components, even with triple glazing.

Optimal handling for further processing: Maximum insulation is achieved through an advanced gasket system with integrated bolt guidance. The add-on construction on steel combines energy-efficient, high visual quality building with well thought-out assembly and manufacturing.

**Product information:**

- Add-on constructions on steel for skylights and facades
- Passive house verified
- Vertical facades and skylights

**DESIGN SPECIFICATIONS**

Face width	50 mm
Surface	powder, anodizing, varnish

**TECHNICAL SPECIFICATIONS**

Fall prevention	yes
National technical approval	yes
Sill safeguard	superimposed, placed in front
CE mark	yes

**SUSTAINABILITY**

Passive House Class	phA
Passive house	yes
Recyclable	yes
Uf-value frame ?	1,52 W/(m <sup>2</sup> ·K)

**FUNCTIONS**

Break-in resistance	up to RC 3
Weight max.	1500 kg
Translucent roof construction	yes
Max. sound insulation RwP	53 dB(A)
