The image displays two architectural cross-sections of a building, likely a residential or institutional structure. The top section shows a multi-story building with a green hatched roof, orange hatched walls, and a blue hatched floor. The bottom section shows a similar structure with a green hatched roof, orange hatched walls, and a blue hatched floor. Both sections include structural details like beams, columns, and a staircase. The drawings are rendered in a technical style with black outlines and color-coded hatching to distinguish different materials and components.
