

A diagram of a window frame with dimensions 5 and 4. The frame is divided into three vertical sections. The leftmost section is a square. The middle section is a square with a diagonal line from the top-left to the bottom-right. The rightmost section is a square with a diagonal line from the top-right to the bottom-left. The dimensions 5 and 4 are indicated by red lines and numbers.

A diagram of a window with a diagonal brace. The window is rectangular with a diagonal brace running from the bottom-left corner to the top-right corner. The diagram is divided into three sections by a horizontal line and a vertical line. The sections are labeled with red numbers in circles: 1 (bottom-left), 6 (top-left), and 7 (top-right).

A diagram of a window frame with a central pane divided by a diagonal muntin. Red dimension lines indicate measurements: '7' for the total width, '8' for the total height, and '9' for the height of the lower section.

The properties of a selected design option or unit combination have to be determined individually based on the comprehensive test documentation.

Tested complete door and wall series in accordance with DIN 4102 and EN 1634/1364.
Clear opening height of up to 2488 mm permitted.
Predominantly compatible with the Schüco ADS 80 FR 30 system
Observe country-specific approvals.
